## **Admissions for AS 2020-2021 are open!!!**

**Dear Parents ,**

**Greetings from Deeksha Playschool & Childcare Centre**

COVID has brought big changes in the preschool education. Our super social little ones will have to stay at home for some more time. They will have to see and wave to their teachers and friends on screen only. For some more time, they will have to do without the playschool toys and learning aids.

But we will have it "Big" once it all opens up. Once we are back to routines. When Fridays will be super fun days and weekends will be waited for.

This all will happen and will happen soon. We will be safe soon. We will be happy together soon. We will sing our rhymes in the classroom soon and we will sit and chat in a group soon. Till then let's just make way with the screen where we can learn from each other and with each other

It will be a totally different experience for children, parents and teachers too. One thing that we are sure of is that we will leave no stone unturned in keeping our concept of customized learning intact.

For the same we will not conduct learning of all students together but it will be done in small batches so that they hear their names and can interact more with the teachers

The duration of class will be shorter

There will be reduced number of holidays once the school starts functioning in classroom structure

Emphasis on quality of online classes

More number of parent interactions and training. The role of parent-teacher partnership will be even more important during the Online classes. We will be having more online training sessions for parents to keep them on board about the practices being used and developmental goals being targeted

Initially we will be taking online classes from the month of June. The dates and timings will be communicated soon

There are a number of novel methods of teaching that will be taken up. We have learnt and made ourselves competent during this period for the next academic session

To make sure that there is gradual and safe transit from home environment to school environment we will take students in small batches once the Govt directives come

So, let's stay strong together during such difficult times and work towards the better learning process for children

You may request the online forms soon. Contact us now to know more about the learning in AS 2020-2021

Thanks & best regards

Dr Jaya Mani
